PRIME CHECK

Enter a number

Check Prime

Result will be displayed here

This screenshot shows the initial state of the 'PRIME CHECK' application. The title 'PRIME CHECK' is at the top. Below it is a text input field with the placeholder 'Enter a number'. A purple button labeled 'Check Prime' is positioned below the input field. At the bottom, there is a text label 'Result will be displayed here'.

PRIME CHECK

15

Check Prime

15 is not a prime number.

This screenshot shows the application after the user has entered the number '15' and clicked the 'Check Prime' button. The number '15' is now in the input field. Below the 'Check Prime' button, the text '15 is not a prime number.' is displayed as the result.
